Dear Sir or Madam, I am a truck driver, and I suscribe to XMRadio. Bill HR4026 per NAB's request to limit XM's customer axcess to weather and trafic information is irresponsibe. The NAB should have no say in dictating what we hear on radio service that we pay for. This service keeps us informed without the distraction of changing channels every time we drive into a new city. This is a safty issue for long distance drivers. I respcetfully request that the FCC reject NAB's petition 04-160 and support XM's ability to provide this service that I deserve. I have also notified my congressman of my position. Thank You, Stuart Garrett
